#### Farmer Street Parking Restriction

The City of Norman's Traffic Control Division has scheduled the installation of parking restriction signing on the north side of Farmer Street between Jenkins Avenue and Lincoln Avenue. Currently there are parking restriction signs in place on the south side of Farmer Street at this location. The new restriction will require the installation of "No Parking Anytime" signs and will make it illegal for any vehicles to park on either side of Farmer Street between Jenkins Avenue and Lincoln Avenue. This change is in response to a request received by the University of Oklahoma and the work is scheduled to be completed during the week of June 14, 2010.

#### University of Oklahoma South Research Campus Parking Restriction

The City of Norman's Traffic Control Division has scheduled the installation of parking restriction signing on the City maintained streets within the University of Oklahoma South Research Campus. Roadways to be affected include Monitor Avenue, Dewey Avenue, Ryan Avenue, Chesapeake Street, Congress Street, Columbus Street and Constellation Street. Only those sections of roadways maintained by the City of Norman will have the restriction signing installed which will read "No Parking Anytime". Additional signs in the portion of the South Research Park Campus maintained by the University of Oklahoma will be installed by their forces. The installation of this signing is in response to a request received by the University of Oklahoma and the work is scheduled to begin the week of June 14, 2010.
